

116-Piece Faucet and Die Set – Metric & SAE Threading Software Package, Bearing Metal

Description

Improve Your Threading Sport with a Full 116-Piece Faucet & Die Set

Take your metalworking expertise to the following stage with this professional-grade 116-piece faucet and die set. Engineered for precision, sturdiness, and ease of use, this complete threading equipment is a vital addition to any toolbox. Whether or not you are a seasoned mechanic, a hands-on DIY fanatic, or tackling dwelling upkeep and automotive repairs, this set delivers flawless efficiency each time.

Crafted from hardened bearing metal with an HRC56 hardness ranking, these instruments are constructed to resist heavy hundreds, resist put on, and endure high-pressure situations. Due to superior CNC machining, 800°F warmth remedy, and a meticulous dual-polishing course of, every bit provides a {smooth}, sharp chopping floor that creates clear, correct threads with minimal effort.

This set contains each taper and plug faucets to cowl each threading want—taper faucets for simpler begins and plug faucets for refining or repairing threads. The hexagonal die design ensures even pressure distribution, whereas the precision-engineered tapered enamel make threading smoother and stop over-threading. Organized in a shock-absorbent transportable storage case, the whole set stays protected, neat, and straightforward to hold to any job website.

Whether or not you are engaged on plumbing, fuel pipes, HVAC programs, lighting set up, or automotive repairs, this set has the flexibility and toughness to get the job accomplished proper.

Product Options

- 116-piece skilled faucet and die set for metric and SAE threading
- Contains 51 faucets, 51 dies, 2 die wrenches, 3 faucet wrenches, screw pitch gauges (SAE &

Metric), extractors, and extra

- Constructed from high-strength HRC56 bearing metal for long-lasting sturdiness
- CNC machined and double-polished for ultra-smooth threading
- Transportable storage case with pearl cotton cushioning protects instruments throughout transport
- Hexagonal die design ensures balanced pressure software and lowered slippage

Why You may Love It

- **Precision You Can Rely On** – Get clear, {smooth} threads each time
- **Versatile Use** – Good for automotive, dwelling restore, HVAC, plumbing, and extra
- **Sturdiness That Lasts** – Constructed to deal with powerful environments and repeated use
- **Every little thing You Want** – Features a full vary of faucet and die sizes and important instruments
- **Simple to Carry and Retailer** – Compact case retains your set safe and arranged

Get Began with Higher Threading Immediately

Whether or not you're chopping new threads or repairing broken ones, this 116-piece faucet and die set offers you all of the instruments you have to do it proper. Say goodbye to tough threads and incomplete passes—this set delivers skilled outcomes each time. Hold your instruments prepared, organized, and transportable for any job at hand. Add this high-performance threading equipment to your workshop and expertise the distinction precision makes.
