

12? 4K Mirror Dash Cam with Dual Front and Rear Cameras

Description

Upgrade Your Driving Experience with Stunning 4K UHD Clarity

Enhance your driving safety and convenience with the 12? 4K Mirror Dash Cam, offering a full high-definition experience for both the front and rear of your vehicle. Equipped with upgraded 2160p resolution on the front camera and 1080p on the rear, this dash cam captures every detail on the road in crystal-clear quality. Its massive 12-inch screen provides an ultra-wide view of your surroundings, minimizing blind spots and ensuring you're always in control, whether driving or reversing.

Ultra-Wide, Dual Camera Coverage

With a 170° front lens and 140° rear lens, this mirror dash cam offers an unparalleled wide-angle view, covering more of the road than standard rearview mirrors. The split-screen function allows you to monitor both the front and rear views simultaneously, giving you a comprehensive look at what's happening around your vehicle. The 2.5D curved glass ensures a smooth, natural viewing experience, while the larger screen size reduces rearview blind spots for safer driving.

Advanced Night Vision & Superior Image Clarity

The upgraded low-reflectivity LCD and advanced WDR & HDR technology ensure clear visibility even in low-light conditions. With its high-quality Starvis sensor and 6-glass lens, the G840S delivers enhanced night vision, making nighttime driving safer and more comfortable. Whether it's bright sunlight or challenging night conditions, this dash cam adjusts to provide the best possible image quality.

Seamless GPS Tracking and Parking Protection

Integrated GPS technology allows you to track your speed, location, and direction, providing critical

data in case of an incident. The precise 24-hour parking monitor keeps your vehicle safe, even when you're not around. Time-lapse recording ensures that every detail is captured without draining power or storage, while the G-Sensor automatically saves footage in case of a collision.

Why Choose the 12? 4K Mirror Dash Cam?

- 2160p 4K front camera and 1080p rear camera for ultra-clear video recording.
- 12? large screen with a wide-angle view to minimize blind spots.
- Built-in GPS for accurate tracking of speed and location.
- Advanced night vision with WDR, HDR, and Starvis sensor technology.
- Loop recording and G-sensor for uninterrupted, reliable video capture.
- Durable supercapacitor designed to withstand extreme temperatures.
- Parking monitor with time-lapse mode for continuous vehicle protection.

Take Control of Your Driving Safety

Invest in the ultimate driving companion with this 12? 4K Mirror Dash Cam. Whether you're driving at night, navigating tight spaces, or parking, this dash cam offers a seamless solution for a safer, more enjoyable experience on the road. With its easy-to-use interface and smart dual-camera functionality, you can drive with peace of mind knowing that every moment is recorded in stunning clarity. Don't miss out—upgrade your driving experience today!
