

160CM Tripod LED Video Light

Description

Upgrade Your Content Creation with the 160CM Tripod LED Video Light and RGB Filters

Capture the perfect shot every time with the 160CM Tripod LED Video Light, complete with a sturdy tripod stand and 4 color RGB filters. This versatile lighting kit is ideal for photographers, videographers, and content creators, offering adjustable brightness and color temperature to suit any shooting environment. With a height-adjustable tripod that extends up to 160CM and USB-powered 70 LED lights, this kit provides professional-quality lighting for filming, live streaming, studio photography, and more. Whether you're shooting videos for YouTube, streaming on Twitch, or capturing product photos, this lighting kit gives you complete control over your lighting setup.

Premium Features for Professional-Quality Lighting

This LED lighting kit is designed with content creators in mind, offering all the features you need to produce stunning videos and photos. The portable and adjustable design ensures you can achieve the best lighting setup for any project, whether you're at home, in a studio, or on location.

- **Adjustable Tripod Stand:** The tripod stand is height adjustable, extending from 69CM (27.19 inches) to 160CM (48.39 inches), making it perfect for a variety of shooting angles and setups.
- **70 LED Light with USB Power:** Equipped with 70 high-quality LEDs, this light provides up to 1000 lumens of brightness. Powered via USB, it's easy to connect to a power bank, laptop, or charger, offering convenience for indoor or outdoor shoots.
- **4 Color RGB Filters:** The included RGB color filters (red, green, blue, and yellow) allow you to create creative lighting effects, adding warmth, cool tones, or dramatic colors to your videos and photos.
- **Adjustable Brightness and Color Temperature:** Easily adjust the brightness from 10% to 100% and the color temperature from 3300K to 5600K, giving you full control over your lighting environment.

- **Portable and Lightweight:** The compact design and collapsible tripod make this lighting kit easy to carry and set up, perfect for on-the-go creators who need a reliable, portable lighting solution.

Why You'll Love the 160CM Tripod LED Video Light Kit

- **Perfect for All Types of Content Creation:** Whether you're filming, live streaming, or shooting product photography, this kit provides versatile lighting options that enhance the quality of your content.
- **Customizable Lighting:** With 4 color filters and adjustable brightness and color temperature, you can create the exact lighting atmosphere you need for any scene.
- **Easy to Set Up and Use:** The tripod is simple to adjust, and the USB-powered LED light ensures that you can power your setup anywhere, from a desktop to a mobile power source.
- **Lightweight and Portable:** Take your lighting kit with you wherever you go, thanks to its lightweight design and convenient carrying case.
- **Reliable for Long Shoots:** With its durable build and adjustable settings, this kit is designed to perform during long shooting sessions, ensuring consistent lighting quality.
