

## 6K 12MP Outside WiFi Security Electronic Camera with 8X Zoom & AI Movement Tracking

### Description

### Advanced Outdoor Security with Ultra-Clear 6K Resolution

Experience next-level home and home defense with this **6K 12MP Outside WiFi Security Electronic Camera**. Developed to catch crystal-clear images and video in spectacular ultra-high meaning, this electronic camera guarantees you never ever miss out on an information. Its distinct triple-lens setup integrates 3 4MP lenses to provide an excellent 12MP overall resolution, providing you abundant, lively visuals both day and night. Whether you wish to monitor your front lawn, car park, or storage facility, this electronic camera uses reputable security with amazing clearness.

### Smart Functions for Total Assurance

What sets this electronic camera apart is its smart AI-powered movement tracking and advanced pan-tilt-zoom (PTZ) abilities. The electronic camera can instantly discover and follow moving items like individuals, animals, or lorries, giving you real-time alerts on your phone. With an 8X zoom and three different image modes—color, infrared, and smart mode—you get versatile monitoring that adapts to different lighting conditions, ensuring sharp images even in low light or complete darkness. Plus, built-in two-way audio lets you communicate through the camera easily, adding another layer of security and convenience.

### Durable and Easy to Use in Any Environment

Built to withstand harsh weather, this camera features a rugged waterproof design rated IP66, so it

continues to perform rain or shine. Its wide 355° horizontal and 90° vertical rotation means no blind spots, covering every angle of your property. Installation is flexible—connect over 2.4GHz WiFi or through a wired RJ45 port for stable, real-time video streaming. Whether for home, office, or outdoor spaces, this camera is your all-in-one surveillance solution.

## Why Choose This Camera?

- **Triple-lens 6K resolution:** Combines three 4MP lenses for ultra-clear 12MP images.
- **AI Motion Tracking:** Automatically follows movement and sends instant alerts.
- **8X Optical Zoom:** Zoom in on distant objects without losing image quality.
- **Color & Night Vision:** See vivid full-color video day and night up to 165 feet.
- **Two-Way Audio:** Communicate directly through the camera remotely.
- **Weatherproof & Durable:** Perfect for outdoor use in rain, snow, or dust.
- **Flexible Connectivity:** Supports both WiFi and wired Ethernet connection.
- **Wide Pan & Tilt Range:** 355° horizontal and 90° vertical rotation covers every corner.

## Secure Your Home with Confidence Today

Keep your property safe with this powerful and reliable security camera that combines high-definition video, smart tracking technology, and robust durability. Whether monitoring your family, animals, or valuables, this electronic camera gives you total control and peace of mind from anywhere using your smartphone.
