

## Advanced Long-Range FPV Quadcopter with Bluetooth

### Description

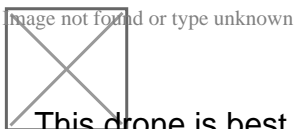

## Experience Unmatched Aerial Adventure

Discover the thrill of flying with our Advanced Long-Range FPV Quadcopter, engineered for the ultimate aerial experience. Perfect for intermediate and expert pilots, this drone is designed to elevate your outdoor adventures, offering unparalleled control and stability.

### Product Features

- Long-range capabilities with a remote distance of up to 2000 meters.
- Durable construction combining metal, plastic, and carbon fiber.
- Advanced video capture technology for high-quality aerial footage.
- 8-channel control for precise and responsive maneuvering.
- Built-in Bluetooth for easy parameter adjustments via mobile phone.
- Compatible with a wide range of cameras including GoPro and Insta 360 Go2.
- Includes comprehensive accessories like battery straps, silicone pads, and screwdrivers.

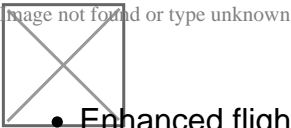

### When to Use

This drone is best used outdoors, catering to those who seek to explore vast landscapes or capture stunning aerial footage. Whether you are a hobbyist videographer or a professional pilot, this quadcopter offers the versatility and control needed for a wide range of applications.

### What Makes It Special

What sets this quadcopter apart is its ability to blend high-tech features with user-friendly controls. The integration of a high-performance F722 flight controller, 42688-P Gyro, and GEPRC RAD VTX ensures a smooth, stable flight experience. The drone's H-shaped frame design contributes to its impressive stability, especially suitable for long-range flights. Additionally, its built-in Bluetooth feature simplifies parameter adjustments, making it convenient for pilots to customize their flying experience.

## Benefits

- Enhanced flight time of up to 30 minutes, perfect for extended missions.
- Strong and sturdy camera mount, ensuring clear and stable footage.
- Personalized protective side plate for improved reliability and safety.
- VTX cooling fins for stable operation during extended flights.
- Flexibility in battery choices, accommodating various flying needs.
- Supports a full range of camera mounting, offering versatility in photography.

## Take Your Flight to New Heights

Whether you're capturing breathtaking landscapes, exploring remote areas, or just enjoying the freedom of flight, our Advanced Long-Range FPV Quadcopter is your perfect companion. Embrace the skies and experience flying like never before. Add this incredible drone to your collection today and elevate your aerial adventures!
