- Enhances sensory exploration with varied textures
- Promotes cognitive development through Montessori principles
- Safe and durable for long-lasting use

- Easy to clean and maintain

Bring home the Baby Wood Ring Soft Silicone Teether Toys today

Best used during the teething phase, these teether toys provide much-needed comfort and distraction for your little one. The combination of soft silicone and natural wood ensures a gentle yet effective teething experience. Their adsorbable design means they can be placed on any flat surface, making them convenient for both playtime and soothing moments.

What makes our Baby Wood Ring Soft Silicone Teether Toys special is their thoughtful design focused on safety and developmental benefits. The BPA-free silicone is perfect for chewing, while the wood ring offers a natural, eco-friendly touch. These teether toys are not just functional but also educational, encouraging your baby's cognitive and sensory development.
