

Compact 2000LM USB-C Rechargeable EDC Flashlight with RGB Auxiliary and IP68 Waterproof

Description

Discover Unmatched Brightness & Versatility

Illuminate your adventures with our powerful, compact EDC flashlight, boasting a remarkable 2000 lumens output, ensuring unparalleled clarity in darkness. Perfect for everyday carry, outdoor activities, or emergency situations, this flashlight is designed to be your reliable companion in any environment.

Product Features

Equipped with a high-performance SFT40 LED, our flashlight offers a broad lighting range up to 616 meters. The durable aerospace-grade aluminum body and IP68 waterproof rating make it resilient in all weather conditions. Its advanced USB-C rechargeable 18350 battery provides long-lasting power, complemented by convenient charging capabilities.

Benefits at a Glance

- **Exceptional Brightness:** 2000 lumens output for clear visibility in the darkest conditions.
- **Versatile Use:** Ideal for EDC, hiking, camping, and emergency situations.
- **Advanced Power:** USB-C rechargeability ensures you're always powered up on-the-go.
- **Durable Design:** Aerospace-grade aluminum and IP68 waterproofing for extreme durability.
- **User-Friendly UI:** Intuitive Anduril 2.0 interface for easy brightness and mode adjustments.
- **RGB Auxiliary Lights:** Adds extra functionality and personalization to your lighting needs.

When to Use

This flashlight is perfect for daily carry, exploring the outdoors, or providing essential illumination during power outages. Its robust design and powerful beam adapt to any situation, from navigating trails at

night to performing tasks in low-light conditions.

What Makes It Special

Our flashlight stands out with its RGB auxiliary lighting and advanced Anduril 2.0 user interface, offering customization and versatility not found in standard flashlights. The combination of high lumens, long-range visibility, and durable construction makes it a top choice for enthusiasts and professionals alike.
