## Key Features That Make a Difference

Our dishwasher comes loaded with features that stand out in the crowded market of home appliances:

- **5 L Built-in Water Tank:** Say goodbye to permanent installation hassles. The built-in tank allows for immediate use without the need for a water hookup, making it ideal for apartments, RVs, and outdoor kitchens.
- **Inlet Hose Option:** For those who prefer a continuous water supply, the included inlet hose offers flexibility for a more permanent setup.
- **5 Washing Programs:** Tailor your washing cycle to suit every need, from intensive cleaning for pots and pans to a gentle wash for delicate glassware.
- **Drip Washing Type:** This efficient washing mode ensures thorough cleaning with minimal water usage.
- **Stainless Steel Housing:** Durable, sleek, and easy to clean, the stainless steel exterior stands up to frequent use and adds a touch of elegance to your countertop.
- **Eco-Friendly:** With a maximum water consumption of 12 liters per cycle and 950W power usage, this dishwasher is designed to be energy and water efficient.
