

Cordless Robotic Swimming Pool Cleaner

Description

Powerful Cordless Swimming Pool Cleansing for a Sparkling Clean Swim

Experience the next level of swimming pool care with this innovative Cordless Robotic Swimming pool Cleaner, developed to take the work out of swimming pool upkeep while providing a perfect tidy each time. Constructed for inground swimming pools, this automated swimming pool vacuum uses extraordinary power and flexibility thanks to its 4 high-efficiency motors, ultra-strong suction, and several cleansing modes. Whether you're preparing your swimming pool for summer season enjoyable or keeping it beautiful throughout the season, this swimming pool cleaner is your trusted cleansing buddy.

Its effective 10200mAh battery permits approximately 300 minutes of continuous cleansing, handling swimming pools approximately 2,000 sq. ft. with ease. The double PVC brushes grip swimming pool surface areas firmly, scrubbing away whatever from leaves and sand to persistent gunk. With a remarkable 3120 gallons per hour suction rate, it guarantees absolutely nothing is left. The big top-load filter cartridges trap particles effectively and are simple to wash tidy with a garden tube, conserving you effort and time.

Item Functions

- **4 Cleansing Modes** – Select from Floor-only, Wall-only, Waterline-only, or All-Cover for customized cleansing.
- **Prolonged Runtime** – Approximately 300 minutes of constant operation on a single charge.
- **Climbable Style** – Specifically developed anti-skid treads and rolling brushes permit it to scale waterlines and walls.
- **Top-Load Filters** – Quickly detachable filter baskets for fast rinsing and reusability.
- **Self-Parking Function** – Easily parks near the swimming pool edge after cleaning up or when

battery is low.

Why This Pool Cleaner Stands Out

What makes this robotic swimming pool cleaner truly special is its combination of powerful cleaning up performance and user-friendly design. The ability to switch between targeted modes means you get precision cleaning exactly where it's needed most. From concrete to fiberglass or mosaic tile, its adaptable treads and brushes make it ideal for nearly all pool finishes. And thanks to its cordless design, there's no need to hassle with tangled cables or external power supplies.

This robotic cleaner is best used for regular maintenance of medium to large inground pools, especially during peak swimming seasons when cleanliness is essential. Whether you're managing daily debris or doing a deep clean after a storm, it delivers consistent, professional-level results every time.

Make Swimming Pool Maintenance Effortless

Say goodbye to manual scrubbing and hello to more time enjoying your swimming pool. This Cordless Robotic Pool Cleaner is the smarter way to keep your pool crystal clear, fresh, and always ready for a swim. Don't wait — **transform your pool cleaning routine today** with intelligent, effective automation.
