

Handbook Pole Saw 4.6-9.8ft, Extendable Tree Pruner for High Branches & Shrubs

Description

Reach New Heights with This Manual Pole Saw

Trim high branches with ease using this **extendable manual pole saw**. Designed for efficiency and precision, this tree pruner extends from **4.6 feet to 9.8 feet**, allowing you to cut hard-to-reach branches without a ladder. Whether you need to prune palm trees, shrubs, or remove overgrown limbs, this lightweight yet durable tool gets the job done effortlessly.

Durable & Lightweight Design

Built with a high-quality **aluminum alloy pole**, this pole saw is both lightweight and durable, making it easy to handle for extended periods. Weighing just **3.5 lbs**, it reduces fatigue while ensuring a firm grip and stable performance. The reinforced screw connections keep the saw securely attached to the pole, providing a safe and steady trimming experience.

Sharp & Efficient Cutting Blade

The **carbon steel saw blade** is designed for fast and smooth cutting. Measuring **0.05 inches thick**, it features a sharp hook knife at the top to help pull down twigs, while special discharge holes prevent clogging by clearing out wood chips as you cut. This ensures maximum efficiency and a clean finish with every use.

Secure & Versatile Use

With an insulated PP handle for a comfortable grip, this pruning tool is designed for stability and safety. Its standard threaded joint makes assembly quick and easy, while the sturdy design ensures precise

cutting whether you're trimming high branches or using it as a handheld saw for lower shrubs and logs.

Why Choose This Extendable Manual Pole Saw?

- **Adjustable Length:** Extends from 4.6 feet to 9.8 ft to reach tall branches.
- **Lightweight & Sturdy:** Durable aluminum alloy pole weighs only 3.5 lbs.
- **Sharp & Efficient Blade:** High-carbon steel blade with hook knife for accuracy cutting.
- **Safe & Stable Design:** Reinforced screw connections prevent loosening during use.
- **Multi-Purpose Use:** Perfect for pruning trees, shrubs, and trimming overgrown limbs.
- **Easy Assembly:** Standard threaded joint allows quick setup and disassembly.

Perfect for Homeowners & Gardeners

Whether you're maintaining your backyard, trimming trees in your garden, or tackling overgrown branches, this **manual pole saw** is the ideal tool. No require for ladders or heavy equipment—simply extend, trim, and enjoy a well-maintained landscape.
