

Handbook Wire Stripping Device

Description

Strip Wires Smarter, Faster, and Easier with This Heavy-Duty Wire Stripper

Take the inconvenience out of wire removing with a tool that's constructed for severe efficiency. This manual wire removing device is developed for specialists and DIYers alike, offering a strong cast aluminum body, precise cutting, and versatile functionality. Whether you're recycling copper wire, prepping cables for projects, or working with a variety of wire types, this machine gets the job done with speed and accuracy.

With three different stripping holes and an adjustable blade, it can strip wires from 0.06" to 0.98" in diameter. It's compatible with everything from hard and soft cover wires to mono-filament and multi-conductor cables. Whether you're working in a workshop, garage, or scrap yard, this machine brings durability and performance to your fingertips.

Built to Last, Designed for Precision

Constructed with a tough cast aluminum frame and a clear acrylic panel, this stripper machine lets you see the entire stripping process while offering maximum protection. The body resists deformation, ensuring long-term use, while the spring steel blade provides ultra-sharp and durable cutting power. Thanks to the deep slot and textured roller, your wires stay stable throughout the process—no slipping, no frustration.

Key Features

- **Durable Build** – Rugged cast aluminum body with a clear view panel for visibility and strength

- **Adjustable Blade** – Easily handle wires from 0.06" to 0.98" in diameter
 - **Stable Performance** – Deep slot and textured roller keep wires from slipping
 - **Complete Accessories** – Includes protective gloves and instructional tips for easy setup
 - **Dual Operation** – Use manually with the crank or connect to a drill for powered stripping
-

Product Benefits

- **Versatile Use** – Perfect for electricians, recyclers, DIYers, and workshop specialists
 - **Fast and Efficient** – Strip multiple wire types quickly with high accuracy
 - **Tool-Free Adjustments** – Easily adapt to different wire sizes with no extra tools
 - **Comfort-Focused** – Ergonomic design and included gloves reduce strain and protect hands
 - **Reliable in Any Situation** – Works manually or with power—great for power outages
-

Strip Like a Pro Today

If you're ready to upgrade your wire stripping game, this tool is a must-have addition to your setup. Whether you're maximizing scrap value, working on electrical repairs, or just want a faster way to strip wires, this device delivers unmatched performance. Simple to operate, built to last, and backed by smart features—it's your new go-to for effortless wire removing.

Get yours now and transform the way you remove wires—fast, tidy, and trouble-free!
