

Handsfree Solar Knapsack Power Station, 268.8Wh LiFePO4 Solar Generator for Travel

Description

Power Your Experiences on the Go

Stay charged and linked any place your journeys take you with the Handsfree Solar Knapsack Power Station. Whether you're trekking, outdoor camping, taking a trip, or recording the best outside shot, this knapsack integrates mobility with power. With a 268.8Wh LiFePO₄ battery, this ingenious solar generator permits you to charge up to 5 gadgets concurrently, consisting of drones, mobile phones, video cameras, and laptop computers. Say goodbye to worrying about power outages while exploring the great outdoors!

Designed for Every Adventure

The Handsfree Solar Backpack isn't just a backpack; it's your all-in-one portable power solution. With a smart, MOLLE-designed external attachment system, you can easily hang your camping gear, sleeping bag, or solar panels right on the backpack. The shoulder straps even have buckles for attaching your GoPro or action video cameras, keeping your gear within arm's reach at all times. Whether you're capturing memories or on a hiking trip, this versatile backpack is made to adapt to your needs.

Faster, Smarter, and Longer Power

With Fragmented Solar Charging Technology, this power station automatically activates when it detects sunlight, ensuring you get the most out of every ray. Even on cloudy days, this innovative technology helps maximize your battery life and charging efficiency. You can fully charge the backpack in just 6 hours with a 60W solar panel or 3.5 hours with a 100W panel, so you're always ready for your next adventure. The ultra-durable LiFePO₄ battery offers over 4000 charge cycles to 80% original capacity, providing long-lasting reliability for all your power needs.

Product Benefits:

- **Efficient Power Management:** The MPPT controller ensures optimal solar charging, extending battery life and improving efficiency.
- **Multi-Device Charging:** Charge up to 5 devices simultaneously, including your drone, smartphone, laptop, and camera.
- **Lightweight & Comfortable:** At just 11lbs, the ergonomic carrying system offers all-day comfort, evenly distributing weight for easy carrying.
- **Fast Charging Options:** Charge via solar, car, or AC, with solar charging taking as little as 1.5 hours for a full charge with a 200W panel.
- **Versatile Design:** Equipped with a MOLLE system and external attachment points, this backpack allows you to carry all your gear and accessories easily.
- **Durable LiFePO₄ Battery:** Reliable and long-lasting with 4000+ charge cycles, the battery ensures your devices stay powered throughout your trip.

Your Ultimate Outdoor Power Companion

The Handsfree Solar Knapsack Power Station is your go-to option for staying connected and charged, whether you're on a remote hike or capturing the best moments of your travels. With its durable construction, fast solar charging, and smart power management, this knapsack will elevate your outdoor experience and ensure you never run out of power when you need it most. Don't let limited battery life hold you back—take control of your power, and embark on your next experience with self-confidence!
