

High-Power LDS Robot Vacuum Cleaner

Description

Experience Hands-Off Cleaning

Transform your home cleaning routine with the High-Power LDS Robot Vacuum Cleaner. Boasting a powerful 5000 Pa suction, this advanced cleaning device offers both vacuuming and mopping capabilities, ensuring your floors are spotless without any effort on your part. The innovative auto-empty dock allows for 60 days of hands-off cleaning, making it the perfect solution for busy households and anyone looking to simplify their cleaning routine.

Powerful & Versatile Cleaning

This robot vacuum cleaner features an impressive 5000 Pa suction power, capable of picking up dirt, dust, pet hair, and debris from all types of flooring. Whether you have carpets, hardwood, or tiles, this vacuum ensures a thorough clean every time. Its wet and dry mopping functions add an extra layer of cleanliness, leaving your floors shining and fresh.

Equipped with advanced LDS (Laser Distance Sensor) navigation, this robot vacuum plans and follows an efficient cleaning route, covering every inch of your home. It intelligently maps your space, avoiding obstacles and optimizing its path for maximum coverage and minimal cleaning time. The result is a comprehensive clean that you can rely on.

The auto-empty dock is a game-changer, providing up to 60 days of hands-off cleaning. The robot automatically empties its dustbin into the dock, allowing you to enjoy a clean home without the daily hassle of emptying the vacuum. This feature is especially useful for pet owners and those with busy schedules.

Convenient and Easy to Use

This robot vacuum is designed for user convenience. Its powerful 40W motor and 14.4V battery offer

up to 2 hours of continuous cleaning on a single charge. With wireless operation and a compact size of 13.2 x 13.2 x 3.7 inches, it easily navigates under furniture and tight spaces. The vacuum also supports timing reservations, allowing you to schedule cleaning sessions at your convenience.
