

Interactive Motion-Activated Dog Toy Ball with Chew Rope and Teeth Cleaning

Description

Keep Your Dog Entertained and Active with the Interactive Motion-Activated Dog Toy Ball

Looking for a fun, engaging way to keep your furry friend entertained and active? The Interactive Motion-Activated Dog Toy Ball is the perfect solution! Designed for small to medium dogs, this smart dog toy is packed with exciting features to stimulate your pet's curiosity and give them the exercise they need. With its motion-sensing technology, this automatic moving ball springs into action with a simple touch, rolling and teasing your dog to play. Plus, it comes with a chewable rope that not only adds to the fun but also helps clean your dog's teeth.

Advanced Features for Maximum Fun

- **Three Motion Modes:** Choose between Fast Mode for high-energy play, Slow Mode for gentle movement, or Interactive Mode, where the ball activates only when touched by your dog.
- **Touch Activation:** The smart motion sensor automatically starts the ball rolling when your dog interacts with it, keeping them engaged for hours.
- **USB Rechargeable:** No need to constantly replace batteries. This toy charges fully in just 2 hours using a Type-C cable and provides long-lasting playtime.
- **Optimal Size:** At 2.44 inches in diameter, it's perfectly sized for small to medium dogs. It's made from BPA-free, environmentally friendly materials that are safe for your pet.
- **Versatile Play:** Whether on hardwood, tile, or carpet, this dog toy rolls effortlessly, making it suitable for any home environment.

Why Your Dog Will Love It

This intelligent dog toy offers more than just playtime—it encourages physical activity, mental stimulation, and even helps clean your dog's teeth with its built-in chew rope. The irregular rolling patterns keep your dog guessing and prevent boredom, while the smart motion activation ensures your pet stays engaged, even when you're busy. Plus, the automatic start feature reactivates the ball after an hour of inactivity, so your dog always has something to chase and play with.

Benefits of the Interactive Motion-Activated Dog Toy Ball

- **Boosts physical activity:** Keeps your dog active and healthy with stimulating movement.
- **Mental stimulation:** Encourages curiosity and exploration with unpredictable rolling patterns.
- **Improves dental health:** The chewable rope helps clean teeth and promote good oral hygiene.
- **Touch-activated fun:** Starts moving when your dog interacts with it, creating spontaneous play sessions.
- **Easy to use:** Simple one-button control for switching between modes and turning the toy on or off.
