Product Features

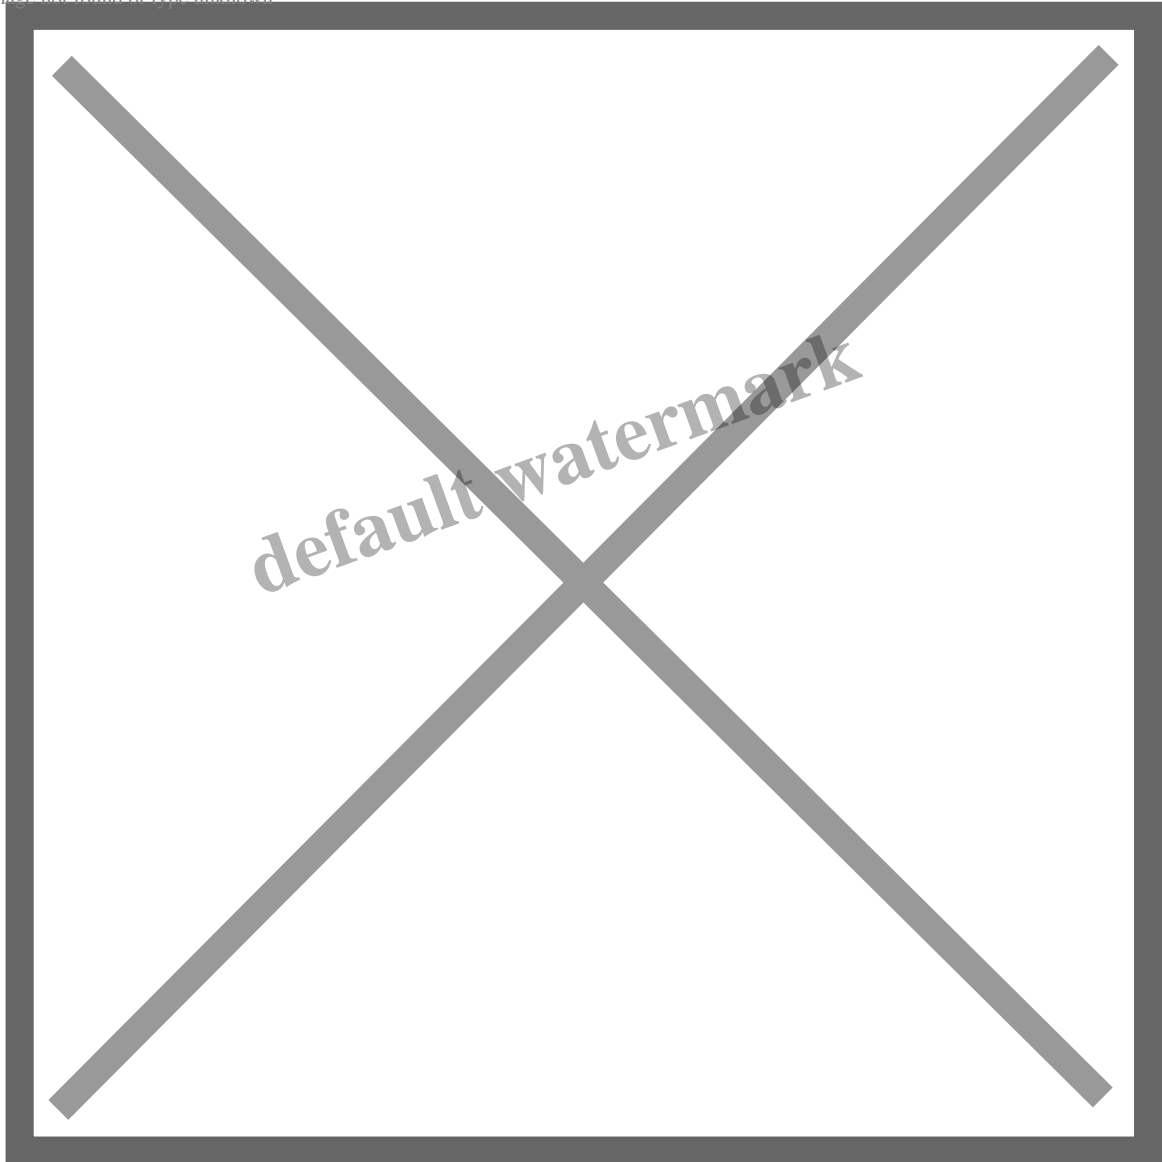

Our bathtub faucet is a testament to superior craftsmanship, featuring a dual holder control for precise temperature management and a sturdy brass valve core for lasting durability. The electroplated surface not only adds to its sleek appearance but also ensures resistance to corrosion and tarnishing. With its easy floor mount installation, this faucet is the epitome of convenience and quality.

- Cold/Hot Water Dual Control
- Durable Brass Valve Core
- Contemporary Style with Electroplated Finish
- Effortless Floor Stand Faucet Feature
- Includes Handheld Shower for Versatility

When to Use This Luxurious Faucet

This exquisite faucet is best used when you're looking to infuse a sense of luxury into your daily life. Whether you're starting the day with an invigorating morning soak or unwinding in the evening with a calming bath, the faucet's ergonomic design and smooth operation make it a joy to use at any time.

Benefits for Your Home

Embrace the fusion of luxury and practicality with our freestanding bathtub faucet. Its dual handle design ensures precise control over water temperature, while the inclusion of a handheld shower offers flexibility, whether rinsing off after a bath or cleaning the tub. The contemporary design, paired with the

matte black finish, suits any modern bathroom, making it a versatile addition to your home.

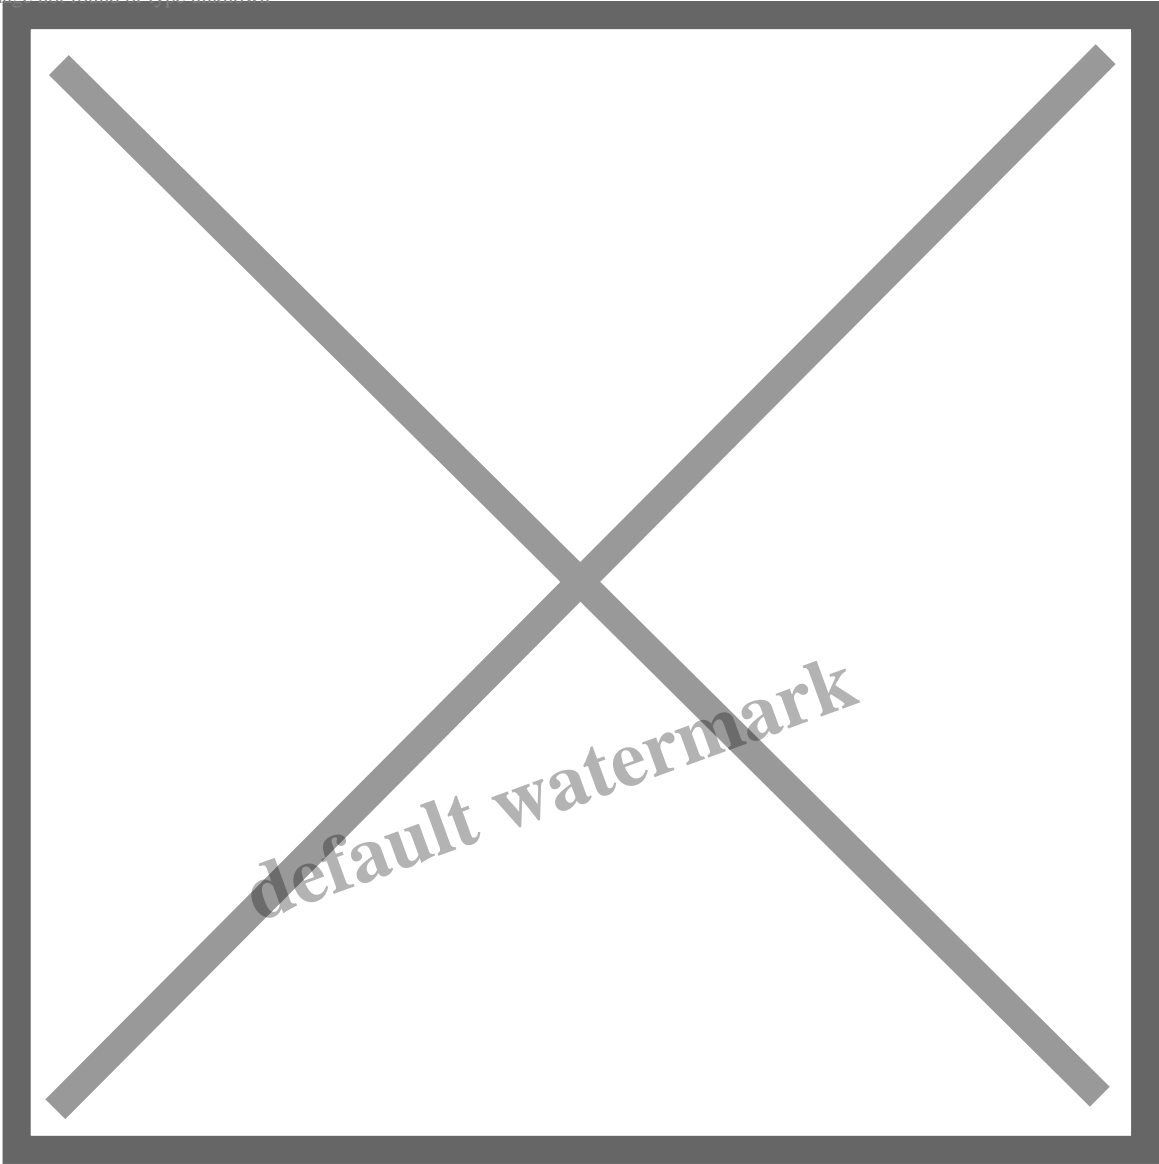

- Enhanced control over water temperature
- Handheld shower for ease and functionality
- Sleek design that elevates bathroom decor
- Long-lasting build with high-quality materials

What Makes Our Faucet Special?

What sets this faucet apart is its balance of aesthetic appeal and functionality. The handheld shower adds a layer of convenience, while the dual handle design allows for easy control. The contemporary style ensures it complements the design of your bathroom, and the high-quality construction promises years of reliable use.
