

## Magnetic Helping Hands Soldering Station – Precision Soldering Tool with LED Light and Magnifier

### Description

## Illuminate, Magnify, and Secure: Your Ultimate Soldering Companion

Introducing our Magnetic Helping Hands Soldering Station, a game-changer for precision repair work. Crafted with flexibility, efficiency, and your eye comfort in mind, this soldering station is your go-to tool for intricate projects.

### Key Features

- **Flexible Operation:** Four universal metal goose-neck arms for easy height and angle adjustment
- **Adjustable Colors and Brightness:** LED lights with three colors and nine brightness levels
- **High Brightness:** 48 lamp beads for a clear and comfortable working environment
- **Eye Protection:** 3x magnifying glass for detail work, reducing eye fatigue
- **Larger Work Area:** Spacious 9.84\*7.87-inch base for comfortable working
- **Free Positioning & Secure Gripping:** Magnetic holders for flexible part placement
- **User-friendly Design:** Goose-neck arms with crocodile clips for a secure grip
- **High-quality Materials:** Stainless steel and iron construction for durability
- **Superb Craftsmanship:** Wear-resistant and rust-proof surface for extended product life
- **Easy to Carry and Install:** Removable components for portability and quick assembly

### Benefits

- Enhanced precision and efficiency in your repair and assembly work
- Reduced eye fatigue with high-quality LED lights and magnifying glass
- Secure grip on parts for worry-free soldering and crafting
- Ample workspace for comfortable and spacious projects

- Durable construction for long-lasting usage
- Easy to carry and install, making it your on-the-go soldering solution

Our Magnetic Helping Hands Soldering Station is a must-have for workshops, solder stations, and craft rooms. Ideal for soldering, circuit board holding, assembly, repair, fishing lure crafting, hobbies, jewelry making, and various crafts.

## Specifications

- **Operating Voltage:** DC 5 V / 2 A
- **Material:** Iron, Stainless Steel, Magnet Iron, Rubber, Acrylic
- **Magnifying Glass Multiple:** 3X
- **Process:** Painting
- **Light Type:** LED(SMD)
- **Number of Lamp Beads:** 48
- **Adapter Type:** USB
- **Brightness Level:** 9
- **Light Colors:** 3 (White, Warm, Warm White)
- **Color:** Black

Illuminate your projects, magnify your details, and secure your precision work with the Magnetic Helping Hands Soldering Station. Order now for a seamless soldering experience!
