

## Mini 4K Projector with Wi-Fi, BT 5.4, and Android 11 – 290 ANSI, Compact, Outdoor & Home Theater

### Description

## Transform Any Area into a Theater with This Mini Projector

Experience home entertainment like never before with this ultra-portable mini projector. Whether you're hosting an outside motion picture night, delighting in a casual home theater experience, or making your yoga session more immersive, this 4K supported projector provides lively colors and crisp, clear visuals in any setting. Thanks to its **290 ANSI lumens**, you'll take pleasure in a brilliant, sharp image even in moderate lighting.

## Includes That Enhance Your Watching Experience

This projector is developed for simpleness and dependability, providing innovative functions without the intricacy. Geared up with the current **Android 11 system**, it offers you access to streaming apps, video games, and more—all without requiring extra gadgets. Plus, with integrated Wi-Fi 6 and Bluetooth 5.4, you can stream material buffer-free, guaranteeing a smooth seeing experience whenever.

- **4K Assistance & 720P Resolution:** Crisp, clear visuals with lively colors to improve every motion picture, program, or video game.
- **290 ANSI Lumens:** Enjoy bright and vivid images in a variety of lighting conditions.
- **Wi-Fi 6 & Bluetooth 5.4:** Easy wireless connectivity for buffer-free streaming and sound.
- **Auto Vertical Keystone & Manual Adjustments:** Perfect alignment with auto vertical correction and manual 4-point keystone adjustments for an optimal viewing angle.
- **Compact & Portable:** Weighing just 0.70 lbs, this projector is incredibly portable, making it perfect for outdoor use and small spaces.
- **Built-in Speaker:** Enjoy clear audio without needing external speakers, or connect via Bluetooth for a custom sound experience.

## When Is This Projector Best Used?

This projector is ideal for a variety of situations. It's perfect for casual viewing at home, whether you're watching a motion picture, playing a video game, or streaming your favorite program. Its compact design and portability also make it great for outdoor gatherings, camping trips, or backyard motion picture nights. The mini size and powerful performance mean you can take this projector anywhere and set it up in seconds, instantly creating a large, high-quality display.

## Why Choose This Mini Projector?

What sets this projector apart is its combination of portability, ease of use, and high-quality output. Despite its compact size, it provides a big impact with its impressive **4K support**, **290 ANSI lumens** brightness, and **clear, brilliant display**. The **built-in Android 11 system** eliminates the need for additional devices, allowing you to stream directly from the projector. The **manual focus**, **4-point keystone correction**, and **50%-100% zoom** ensure that you get the perfect picture every time, whether you're projecting on a wall, screen, or outdoor surface.

## Get Ready for Big Entertainment in a Mini Package

Whether you're upgrading your home theater setup or creating an unforgettable outdoor experience, this projector is your all-in-one solution for big entertainment in a small package. It's easy to set up, easy to use, and delivers high-quality visuals and noise wherever you go. **Bring the cinema to your living room or yard and enjoy movies, games, and shows like never before.**

**Get yours today and enjoy the magic of huge-screen home entertainment anywhere!**
