

Multi-Device Wireless Mouse with Bluetooth 5.0 & 2.4G

Description

Effortless Control, Ultimate Precision

Say goodbye to the hassle of multiple mice for different devices. Our Multi-Device Wireless Mouse with Bluetooth 5.0 & 2.4G connectivity brings the ultimate convenience to your workspace. Whether you're working on a laptop, desktop, or even a gaming console, this wireless mouse seamlessly connects and delivers superior performance. Designed for right-hand users, its ergonomic shape ensures hours of comfortable use without hand fatigue. The 6-button layout and adjustable DPI up to 4000 make it the perfect tool for productivity, browsing, and even intense gaming sessions.

Key Features

- Multi-device connectivity via Bluetooth 5.0, 3.0, and 2.4G wireless for versatile use.
- Ergonomic right-hand design for comfort during extended use.
- Adjustable DPI settings (1000-1600-2400-3200-4000) for precise control across different tasks.
- Rechargeable with Type-C charging cable, saving you the hassle of changing batteries.
- Up to 10 meters of wireless range, allowing freedom of movement around your workspace.
- 6-button layout, including a DPI adjust button and optical roller for enhanced functionality.

Why You Need This Mouse

Imagine switching between your work laptop, home desktop, and even your gaming setup—all with a single mouse. This versatile wireless mouse is the answer to cluttered desks and complex setups. It's perfect for multitaskers and those who need a reliable, responsive device for gaming or work. The adjustable DPI settings allow you to switch between high precision for detailed tasks and faster speeds for gaming or general use, making it incredibly adaptable. The ergonomic design minimizes strain on your hand, making it ideal for long sessions of use.

What Makes It Stand Out

What sets this mouse apart is its seamless multi-device compatibility and its robust, rechargeable design. With Bluetooth 5.0 and 2.4G wireless technology, you can easily switch between devices without needing additional hardware. The built-in rechargeable battery with a convenient Type-C charger is eco-friendly and budget-friendly—no more disposable batteries. Additionally, the optical sensor and DPI adjust button provide tailored precision for any task, whether you're working on a detailed design or playing fast-paced games.

Benefits

- Work faster and more efficiently with customizable DPI settings for accuracy and speed.
- Ergonomic design ensures comfort even during extended use, reducing strain on your hand and wrist.
- Easy switching between devices makes it perfect for professionals and gamers alike.
- Long wireless range offers flexibility to move around your workspace without losing connection.
- Rechargeable battery with Type-C charging cable means no more wasting money on disposable batteries.

Make the Switch Today

Whether you're working, browsing, or gaming, this Multi-Device Wireless Mouse delivers the perfect blend of comfort, performance, and convenience. Don't settle for an ordinary mouse—upgrade to a mouse that works as hard as you do. Order yours today and experience a new level of efficiency and comfort in your daily tasks!
