

Pocket Bluetooth Speaker – Under Pillow Bone Conduction Sleep Noise Box

Description

Enhance Your Sleep with a Pocket-Sized Under Pillow Bluetooth Speaker

Drift into deep relaxation with the **Pocket Bluetooth Speaker – Under Pillow Bone Conduction Sound Box**. Designed to deliver soothing sounds directly through your pillow, this ultra-compact speaker uses advanced bone conduction technology to provide a private and immersive listening experience without disturbing those around you. Whether you need white noise, calming melodies, or your favorite audiobook, this wireless speaker ensures a peaceful night's rest.

Key Features

- **Bone Conduction Technology:** Enjoy sound clarity without needing traditional earphones. The speaker transmits vibrations directly to your pillow, creating a seamless and gentle listening experience.
- **Bluetooth 5.3 Connectivity:** Connect effortlessly to your smartphone, tablet, or other Bluetooth-enabled devices with a strong and stable connection up to 33 feet.
- **Rechargeable & Long-Lasting Battery:** Built-in 300mAh battery provides up to 8 hours of continuous playback on a single charge. Recharge easily with the included Type-C cable in just about 2 hours.
- **Ultra-Thin & Lightweight Design:** Measuring just 6.1 x 1.5 x 0.4 inches and weighing only 2 oz, it fits discreetly under any pillow without discomfort.
- **TF Card Support & Timer Function:** Play your favorite sleep sounds directly from a memory card, or set a 1-hour timer for automatic shut-off.

Why Choose This Under Pillow Speaker?

Struggling to fall asleep or looking for a discreet way to enjoy audio without headphones? This bone

conduction speaker is the perfect solution. It eliminates the discomfort of earbuds while ensuring you hear your audio clearly, even when lying down. Perfect for relaxation, meditation, ASMR, and white noise therapy, it enhances sleep quality for light sleepers, travelers, and anyone needing a soothing bedtime routine.

When to Use This Pocket Speaker?

- Falling asleep with calming sounds, audiobooks, or white noise
- Relaxing during meditation or ASMR sessions
- Traveling – compact and easy to carry anywhere
- Working or studying – enjoy personal audio without disturbing others

Improve Your Sleep & Relaxation Today!

Say goodbye to restless nights and uncomfortable headphones. The **Pocket Bluetooth Speaker – Under Pillow Bone Conduction Sound Box** offers a seamless way to enjoy your favorite audio while drifting into deep, restful sleep. Order yours today and transform your bedtime routine!
