

Portable 100W 7-Speaker Subwoofer with Double Wireless Microphones – Water Resistant, RGB, 12 Hours Playtime

Description

Unleash Powerful Sound with a Stunning Design

Transform any space into a vibrant music experience with this portable 100W 7-speaker subwoofer. Designed for both performance and style, this speaker combines advanced technology with an eye-catching RGB display. Whether you're hosting a party, enjoying a backyard gathering, or just relaxing at home, this speaker is the perfect choice to elevate your sound experience.

Crystal Clear Sound & Immersive Bass – Featuring a powerful 7-speaker system, this portable subwoofer delivers a rich, immersive audio experience. Whether you're listening to your favorite music or watching a movie, the deep bass and clear treble will surround you with high-quality sound. The speaker's three-way audio crossover ensures smooth transitions between frequencies, allowing you to enjoy every note in perfect harmony.

Waterproof & Durable – Don't let the weather spoil your fun. This portable speaker is waterproof, making it perfect for outdoor use. Whether it's a poolside party or an afternoon at the beach, your music stays safe, and the sound remains clear. Built with a tough metal cabinet, it's engineered to handle bumps, drops, and spills while maintaining excellent performance.

Dual Wireless Microphones for Karaoke & More – Ready to take your gatherings to the next level? This speaker comes with two wireless microphones, letting you sing your heart out during karaoke sessions or make announcements with ease. Say goodbye to tangled wires and hello to seamless fun!
