

Portable Cordless Water Flosser with 4 Jet Tips, 4 Modes

Description

Revolutionize Your Oral Care with a Cordless Water Flosser

Say goodbye to traditional flossing and step into the future of dental care with this Portable Cordless Water Flosser. Designed to offer an efficient and thorough cleaning experience, it removes up to 98% of plaque thanks to its advanced ultrasonic bubble technology. Featuring a large 260ML water tank, four customizable cleaning modes, and a powerful rechargeable battery, this water flosser ensures your teeth and gums are always in top condition—whether you're at home or on the go.

Key Features

- **4 Water Pressure Modes:** Tailor your oral care routine with 4 modes—Normal, Soft, Shoot, and Custom. Perfect for sensitive gums and braces.
- **260ML Water Tank:** Large enough for a 2-minute cleaning session without refilling, ensuring an uninterrupted experience.
- **USB Rechargeable & Long Battery Life:** With a 2500mAh battery, enjoy up to 110 days of use from a single 4-hour charge.
- **IPX7 Waterproof:** Safe to use in the shower and fully washable, this flosser's double-sealed rings prevent water leakage.
- **4 Jet Tips Included:** Comes with 2 standard nozzles, 1 braces nozzle, and 1 periodontal pocket nozzle for a complete dental care routine.
- **Smart LED Display:** The smart display helps track your usage and shows when it's time to charge, making it user-friendly for everyone.

Benefits

- **Healthier Gums:** The water flosser effectively removes debris and plaque from hard-to-reach

areas under the gums, improving gum health.

- **Perfect for Braces & Bridges:** Its high-pressure water pulse reaches areas that brushing and traditional flossing miss, making it ideal for users with braces, bridges, or dental work.
- **Travel-Friendly:** Lightweight at just 0.68 lbs, it's easy to pack and perfect for maintaining your oral hygiene on the go.
- **Customizable Cleaning:** With 4 water pressure settings, you can easily adjust the intensity based on your comfort and dental needs.
- **Eco-Friendly & Cost-Effective:** Say goodbye to disposable floss. This rechargeable device reduces waste and saves money over time.

Why Choose This Water Flosser?

Unlike traditional flossers, this cordless water flosser delivers a professional-grade clean at home. Its unique combination of ultrasonic technology and powerful water pulses ensures that even the most stubborn plaque is removed, leaving your teeth cleaner and your gums healthier. With its IPX7 waterproof rating, ergonomic design, and long battery life, this product is perfect for both home use and travel, giving you a fresh, just-brushed feeling every time. It's the ultimate tool for braces and sensitive gums, ensuring you achieve optimal oral health effortlessly.
