

Safety Climbing Harness Kit

Description

Experience Unmatched Safety and Comfort

Embark on your outdoor adventures with confidence using our Safety Climbing Harness Kit. Crafted with high-strength polyester and featuring a robust alloy hardware, this harness ensures durability and reliability. The steel buckle on the back is not only anti-rust but also incredibly sturdy, providing you with a secure climbing experience.

Key Features

- **High Strength Polyester:** Anti-scratch and tough, ensuring longevity.
- **1764 LBS Weight Capacity:** Trustworthy and capable of handling your climbing needs.
- **Full Body Cover:** Distributes falling force across the entire body, reducing damage.
- **Adjustable Size & Easy Storage:** Quick to put on and off, adjustable for your comfort, and easily packable.
- **Wide Application:** Ideal for construction, gutter cleaning, roofing, search and rescue, ensuring your safety in various scenarios.

Your Safety is Our Priority

Our climbing harness with shoulder strap is designed for a full-body protection system. The shoulder strap efficiently transfers tension from the waist belt, providing improved comfort during your climbing endeavors. The polyester webbing, coupled with robust aluminum alloy D-rings, ensures a weight capacity of 1764 lbs, making it reliable and safe for your climbing needs.

Comfortable and Adjustable

The thickened thigh pad, waist belt, and shoulder strap offer a comfortable experience while providing

essential support. With an adjustable waist perimeter (80 – 140 cm) and leg perimeter (60 – 75 cm), this harness is suitable for various body types, ensuring a secure and personalized fit.

Easy to Use, Easy to Trust

The integrated overall design eliminates the hassle of buckles, making it simple to tighten or loosen. The climbing harness automatically adjusts, leaving no chance of wrong threading. This innovation, coupled with the wide range of applications, makes it the best choice for rock climbing, rappelling, engineering protection, and more.
