Key Features

- **Material:** Durable ABS engineering plastic
- **Voltage:** 4.5V
- **Light Source:** LED with two brightness levels (99 lumens and 199 lumens)
- **Waterproof:** Waterproof for life, ideal for any weather conditions
- **Rechargeable:** Solar-powered fan with USB output for charging mobile phones and low-power USB night lights

Why You Need This Camping Light & Fan

Whether you're setting up camp, hiking through the woods, or simply enjoying a night in your backyard, our Solar Rechargeable Camping Light & Fan is the perfect companion. It provides reliable lighting and a refreshing breeze, making it indispensable for both indoor and outdoor use. The contemporary design ensures it fits seamlessly into any setting, while the powerful LED light source guarantees you never stumble in the dark.

Unmatched Benefits

- **Convenient Lighting:** With a luminous flux of 99 lumens for ambient lighting and 199 lumens for brighter illumination, you can easily adjust the light to your needs.
- **Portable Fan:** The integrated fan keeps you cool on hot days, adding to your comfort during camping trips or outdoor activities.
- **Eco-Friendly Power:** Solar rechargeable capabilities mean you can harness the power of the sun, reducing your carbon footprint and eliminating the need for disposable batteries.
- **USB Charging:** The USB output supports mobile phone charging and powers low-consumption USB night lights, ensuring your devices stay charged and ready for use.
- **Durable and Waterproof:** Made from robust ABS plastic, this device is designed to withstand harsh conditions, ensuring it remains functional and reliable.

Don't Miss Out!

Transform your outdoor adventures with the convenience and reliability of our Solar Rechargeable Camping Light & Fan with USB Charging. Whether you're an avid camper or just love spending time outdoors, this versatile tool will light up your nights and cool down your days. Order now and elevate your camping experience to the next level!
