

Stainless-steel Kitchen Area Work Table with Wheels

Description

Upgrade Your Kitchen Area or Work Space with a Resilient Stainless-steel Work Table

Bring expert performance into your cooking area, garage, or work space with this 24 x 18 inch stainless-steel work table. Developed to deal with heavy usage and stay up to date with your busiest preparation days, this smooth and strong table is your reputable partner for whatever from slicing and kneading to arranging materials. Whether you're equipping a dining establishment cooking area, hosting a catering occasion, or remodeling your home setup, this workbench is made to make your life simpler.

Built from top quality SUS201 stainless-steel, the table includes a rust-resistant, easy-to-clean surface area that constantly looks polished. With a leading rack that supports approximately 400 pounds and a lower rack holding up to 300 pounds, it provides strength you can depend upon. Plus, its mobile style with 4 smooth-rolling swivel casters (2 with brakes) permits you to move it easily and lock it safely in location when required.

Why This Work Table Stands Apart

From hectic industrial kitchen areas to weekend DIYers in the garage, this table fits completely into any environment where tidiness, effectiveness, and resilience matter. The adjustable lower shelf lets you customize your storage space based on the size of your tools or ingredients, offering total flexibility. Its professional-grade build and stylish design elevate both function and appearance, making it more than just a table—it's a game-changer.

Key Features

- 24 x 18 inch stainless steel tabletop with smooth, rust-resistant surface
