

Tuya WiFi Zigbee Window Door Sensor With Battery Smart Home Security Alarm System Voice Control Via Alexa Google Home Smart

Description

Enhance Your Home Security with Smart Window & Door Sensors

Keep your home safe and secure with the WiFi Zigbee Smart Window & Door Sensor, the perfect addition to your smart home setup. This smart sensor instantly alerts you whenever a door or window is opened, providing real-time updates directly to your phone via the Tuya Smart or Smart Life app. With voice control compatibility through Alexa and Google Home, you can easily monitor your home's security, making it simple to protect your family and property. Whether you're home or away, rest easy knowing that this smart sensor keeps you connected and secure.

Intelligent Features for Modern Home Security

This smart sensor is available in two versions: WiFi and Zigbee. The WiFi model works directly with your mobile app, while the Zigbee version requires a Tuya Zigbee hub for optimal performance. The compact design is discreet and easy to install on doors or windows, ensuring seamless integration into your home. With low-battery reminders and easy app controls, this sensor is designed to be both efficient and convenient, helping you stay informed with minimal effort. Plus, the wide working distance ensures reliable performance across multiple entry points in your home.

- **WiFi or Zigbee Connection:** Choose between WiFi for direct app control or Zigbee for integration with a Tuya hub.
- **Voice Control:** Fully compatible with Alexa and Google Home for hands-free monitoring and alerts.
- **Real-Time Alerts:** Get instant notifications whenever a window or door is opened, directly on your phone.

- **Long Working Distance:** The sensor works with a 15mm distance for reliable detection on most doors and windows.
- **Low Battery Alerts:** Stay informed with reminders when the sensor's battery is running low.
- **Wide Temperature Range:** Functions in extreme conditions, from -10° to 55°, making it suitable for various environments.
- **Easy Installation:** Simply stick the sensor to your door or window frame and sync it with the app for quick setup.

When to Use This Smart Sensor

This WiFi Zigbee Smart Window & Door Sensor is perfect for anyone who wants to upgrade their home's security effortlessly. It's ideal for monitoring entry points such as doors, windows, and even cabinets. Whether you want to keep an eye on your home while you're away or just add an extra layer of protection, this sensor provides instant alerts, giving you peace of mind at all times.

What Makes This Sensor Special?

What sets this smart sensor apart is its seamless integration with popular voice assistants like Alexa and Google Home. You can control the device with simple voice commands, allowing you to monitor your home's security without lifting a finger. The real-time alerts sent directly to your phone ensure you're always in the know, while the flexible connectivity options (WiFi or Zigbee) make it adaptable to any smart home setup. With its long battery life and low battery reminders, this sensor offers worry-free, long-term security for your home.

Why You'll Love It

- **Effortless Security:** Easy to install and operate, providing quick peace of mind for your home.
- **Smart Integration:** Control and monitor via voice commands with Alexa or Google Home.
- **Instant Notifications:** Stay updated with real-time alerts whenever doors or windows are opened.
- **Flexible Connectivity:** Choose between WiFi or Zigbee options to suit your smart home system.
- **Reliable Performance:** Works in extreme temperatures and offers a wide detection range, making it perfect for any environment.

Don't wait—upgrade your home's security today with this Smart Window & Door Sensor, and enjoy seamless protection for your home and loved ones.
