

Ultimate RC Stunt Car: 360° Rotation, 18km/h High Speed

Description

Fantastic Toy of Remote Control Car

Unleash boundless excitement with our Electric RC Car Remote Control Stunt Car Buggy. This incredible stunt car spins and rotates 360 degrees at a mind-blowing speed, flips, and transforms with just one button on the remote control. With a maximum speed of 18KM/H, it's perfect for quick turns and rotations, making it an absolute delight for kids of all ages.

Upgraded Durable Design

Say goodbye to worries about your child's tears after a tumble down the stairs or a collision with a wall. Our remote control car features an upgraded premium ABS plastic body, rubber tires, and supporting wheels on each side. This design ensures durability, allowing the car to conquer flat and muddy lands, grassy fields, steep slopes, and even stairs with ease.

Play Together with Ease

The 2.4GHz high-frequency controller enables multiple RC cars to be driven together without any signal interference. The easy rocker controller allows for smooth forward and backward movements, as well as quick turns with the press of the transform button. It's the best remote control car for girls and boys who love to play together and create unforgettable memories.

Perfect Toy Car Gift for Kids

This remote control car is not just a toy; it's an opportunity for hand-eye coordination and imagination-building open-ended play. Ready to go right out of the box, it's a surprise birthday gift that will make any child's day. The set includes one car, a remote controller, a USB charging cable, and a battery, making it an all-in-one package for hours of fun.
