

## Ultra HD 4K WiFi Body Cam with Night Vision & Movement Detection

### Description

### Capture Every Detail, Anytime, Anywhere

Whether you're on duty, out exploring, or just want to stay protected, this Ultra HD 4K WiFi Body Camera is your reliable digital companion. Compact, wearable, and built to deliver, it records high-resolution video and audio with total clarity—even in the dark. With built-in infrared night vision and motion detection, it's made to perform in real-time, even when the lights go out.

This portable DV camcorder is designed for those who need high performance in a small, lightweight device. Featuring real-time WiFi monitoring, clear 4K video resolution, and up to 7 hours of recording time, it ensures you never miss a moment. The back clip makes it easy to attach to your clothes, gear, or backpack—ideal for law enforcement, outdoor adventurers, or anyone needing an extra layer of security.

So, what makes this wearable camera special? It's the perfect mix of durability, advanced features, and simplicity. From recording HD footage to capturing audio and still photos, it's a powerful, all-in-one device built to adapt to your needs—day or night.

### Product Features
