

Ultra-Light Tri-Mode Wireless Video Gaming Headset with Mic for PC/PS5/Xbox

Description

Level Up Your Video Gaming Experience

Enter the action with the supreme audio weapon – the ultra-light tri-mode cordless video gaming headset developed for PC, PS5, Xbox, and more. This headset provides whatever you require to control your video game: effective noise, zero-lag efficiency, all-day convenience, and total cross-platform compatibility. Whether you're raiding, racing, or on a late-night voice chat with your team, this headset keeps you totally immersed and in control.

Weighing simply 5.9 ounces, it's developed for long video gaming sessions without pressure or tiredness. Thanks to the collapsible style and breathable ear cushions, it's the best buddy whether you're at home or on the go. The 40mm motorists drain abundant, vibrant audio with deep bass and crystal-clear highs, perfect for whatever from shooting hints to cinematic soundtracks. Plus, with ultra-low latency through 2.4GHz cordless, you'll never ever miss out on a beat – or a shot.

What Makes This Headset Stick Out?

- **Tri-Mode Connection:** Change easily in between 2.4GHz cordless, Bluetooth 5.4, and wired 3.5mm to fit any setup.
- **Ultra-Low Latency:** Delight in 30ms reaction time for real-time audio feedback without any hold-up.
- **Crystal-Clear Microphone:** Rotatable noise-canceling mic guarantees your voice comes through clear and loud.
- **Double Noise Modes:** Toggle in between Video game and Music modes to match your ambiance.
- **Long Battery Life:** Play up to 35 hours on Bluetooth or 23 hours through 2.4GHz cordless on a single charge.

- **RGB Lighting:** Tailor your headset's appearance with adjustable lighting results.
- **All-Device Compatibility:** Functions with PC, PlayStation, Xbox (wired), smart devices, laptop computers, and more.

Perfect for every single Video Gaming Minute

This headset is constructed for each circumstance—from high-stakes FPS fights to casual mobile video games and music in between sessions. Usage 2.4GHz mode for competitive console and PC play, change to Bluetooth for mobile flexibility, or plug in the 3.5mm cable television when you're short on battery. The audio hold-up is almost nonexistent, making it best for busy video games where every millisecond matters.

Why You'll Love It

- Super light-weight and collapsible for mobility and convenience
- Effective 40mm motorists with improved bass for immersive noise
- Trusted interaction with noise-canceling mic
- Quick charge with simply 2.5 hours charging time
- Suitable with essentially any video gaming or media gadget

Take Control of the Video Game

With on-ear controls, adjustable lighting, and unsurpassable noise clearness, this headset doesn't simply stay up to date with your video gaming—it levels it up. Whether you're a console champ, a mobile master, or a PC powerhouse, this is the only headset you'll require. It's time to hear the distinction. It's time to play your method.
