

Ultrasonic Dog Repeller with LED Flashlight and Dual Sensors

Description

Transform Your Dog Training with Our Ultrasonic Repeller

Say goodbye to unwanted barking and disruptive behaviors with our Ultrasonic Dog Repeller with LED Flashlight. This innovative device combines cutting-edge ultrasonic technology with practical features, making it an essential tool for any dog owner. With a range of 10 meters (32 feet), this repeller effectively captures your dog's attention without causing harm, helping you train them to behave better and respond to commands.

Key Features of the Ultrasonic Dog Repeller

- **Safe and Effective Training:** Emits ultrasonic sounds in the range of 20-25 kHz, beyond human hearing, making it a safe alternative to traditional training methods.
- **Dual Sensor Technology:** Equipped with two sonar heads for enhanced power and range, making it more effective than single-head devices.
- **Versatile Modes:** Features a Deterrent Mode for driving away aggressive dogs with a higher intensity sound and a Training Mode for correcting excessive barking and other unwanted behaviors.
- **LED Flashlight:** Bright LED light helps you navigate during night walks while also aiding in training.
- **USB Rechargeable:** An 800mAh lithium battery provides up to 30 days of use on a single charge, taking only 1-2 hours to fully recharge.
- **Slim Design with Anti-Mistake Lock:** Compact design fits comfortably in your hand, featuring a lock key to prevent accidental activation.
