

## USB Dynamic Microphone Kit with Boom Arm and RGB Shock Mount

### Description

## Unleash Your Voice with Our USB Dynamic Microphone Kit!

Step up your audio game with our USB Dynamic Microphone Kit, designed for gamers, podcasters, and streamers alike. This comprehensive set includes a dynamic microphone, a sturdy boom arm, and an eye-catching RGB shock mount, all crafted to deliver exceptional sound quality and style. Whether you're streaming on Twitch, recording a podcast, or playing your favorite games, this microphone kit has everything you need to make your voice heard clearly and confidently.

The microphone features a uni-directional polar pattern, which focuses on your voice while minimizing background noise, ensuring crisp and professional audio. With a frequency response range of 110 Hz to 15 kHz, it captures the full depth of your sound, making it perfect for voiceovers and vocals. The included boom arm provides flexibility and ease of use, allowing you to position the microphone exactly where you need it for maximum comfort and efficiency.

### Key Features

- **Dynamic Microphone:** High-quality sound with a sensitivity of  $-50\pm30\text{dB}$ .
- **Uni-Directional Polar Pattern:** Captures your voice while rejecting unwanted background noise.
- **RGB Shock Mount:** Stylish design that not only looks great but also protects your microphone from vibrations.
- **Adjustable Boom Arm:** Easily position the microphone for optimal audio capture.
- **USB Output:** Simple plug-and-play setup compatible with PCs, PS4, and PS5.

### Why This Kit Stands Out

This microphone kit is tailored for those who take their audio quality seriously. The dynamic microphone excels in various environments, from home studios to live gaming sessions. With its easy USB connectivity, you can plug it into your laptop or console without any hassle. The RGB shock

mount adds a unique touch to your setup, making it not just a tool for communication but also a stylish accessory for your workspace. Plus, the included boom arm ensures you can always find the perfect angle for recording.
