

WiFi Indoor Smart Security Camera

Description

Advanced Security for Your Home, Day or Night

Upgrade your home's security with this WiFi Indoor Smart Security Camera, designed to provide 24/7 protection. Featuring 4MP HD resolution and infrared night vision, it delivers crystal-clear footage even in low light. The camera's panoramic 360° pan and 180° tilt functionality ensures every corner of the room is covered, giving you a complete view of your space. With smart motion and sound detection, you'll receive instant alerts for any unusual activity, whether you're at home or away. Keep your loved ones safe and secure with this cutting-edge smart camera.

Stay Connected, Anytime, Anywhere

Using the camera's two-way audio feature, you can easily communicate with family members or pets while you're away. Whether you're at work, running errands, or on vacation, you can monitor your home in real-time through your smartphone. The camera's smart linkage also allows you to set specific angles to monitor, and with a simple tap in the app, you can instantly switch between them. For added convenience, the camera supports both cloud storage and TF card options, ensuring your footage is stored safely.

Key Features

- 360° Pan and 180° Tilt for full room coverage
- 4MP HD resolution with infrared night vision
- Motion and sound detection alerts with siren
- Two-way audio communication
- Smart linkage with preset points for easy monitoring
- Supports both cloud and TF card storage (32GB, 64GB, 128GB)
- Privacy mode with one-click activation
- Wide Dynamic Range (WDR) for clear imaging in all lighting conditions

Why Choose This Smart Camera?

- **Complete Coverage:** The 360° panoramic view and 180° tilt ensure that every angle of your space is visible and protected.
- **Enhanced Night Vision:** Clear HD footage even in pitch darkness, thanks to advanced infrared technology.
- **Smart Alerts:** Get real-time notifications on your smartphone when motion or sound is detected.
- **Privacy Mode:** With just one tap, the camera turns to the bottom to protect your privacy when needed.
- **Remote Access:** Monitor your home from anywhere in the world with the intuitive app.
- **Customizable Monitoring:** Select specific areas to monitor and receive alerts only for those zones.

Ensure the Safety of What Matters Most

This WiFi Indoor Smart Security Camera is the ultimate solution for peace of mind. Whether you're looking to secure your home, keep an eye on pets, or monitor specific rooms, this camera provides reliable protection and easy control. Set up your customized security system today and feel safer knowing your home is always under watch.
