

Winter Electric Heated Gloves

Description

Embrace the Warmth of Adventure

Discover the ultimate solution to winter's chill with our Winter Electric Heated Gloves, meticulously designed for the ardent adventurer and winter sports enthusiast. Whether you're hitting the slopes, embarking on a snowy hike, or simply facing the winter chill, these gloves are your steadfast companion.

Exceptional Heating Technology

At the heart of our gloves lie advanced carbon fiber thermal elements. These high-conductivity, damage-resistant fibers ensure even heat distribution, covering each fingertip and the entire back of your hand. Enhanced with 20% more heating elements in the thumb and a delicate heating wire through the palm, cold hands are a thing of the past. With three adjustable heat settings reaching up to 65 degrees Celsius, customize your warmth to suit your environment.

Durable, Comfortable, and Functional

Crafted from a blend of polyester, nylon, polyurethane, and elastane, these gloves offer the perfect balance of durability and comfort. The waterproof and windproof shell doesn't compromise on breathability, ensuring your hands stay dry and comfortable. The smart touchscreen-friendly thumb area allows you to use your devices effortlessly. Additional features include an adjustable wrist buckle, elastic windproof buckle, and an anti-lost buckle to secure your gloves.

Long-Lasting Battery Life

Powered by high-performance 7.4V, 2200mah lithium batteries, enjoy extended warmth with up to 7 hours of low heat. The rechargeable feature means you're always ready for your next winter adventure.
