

Wired Video Gaming Headset with Mic, 3.5mm Surround Noise Over-Ear for Console & PC

Description

Level Up Your Video Gaming Audio

Prepare to change every video gaming session into a full-blown immersive experience with this wired video gaming headset. Created for enthusiastic players who require clear noise, convenience, and trusted interaction, this headset brings virtual worlds to life with crisp, 3D stereo audio. Whether you remain in the middle of a fight royale or checking out open-world landscapes, this headset guarantees you never ever miss out on a beat — or a step.

Created for Convenience, Developed for Fight

Prolonged gameplay needs convenience, and this headset provides. Its big, memory foam ear cups entirely cover your ears, shutting out diversions and remaining mild even throughout marathon video gaming sessions. The adjustable headband fits comfortably without pressure, making it perfect for long hours of play, research study, or online chatting.

Immersive Noise and Crystal-Clear Chat

Double 50mm chauffeurs drain effective surround noise that makes in-game audio richer and more in-depth. From the softest steps to the loudest surges, the noise is sharp, assisting you respond quicker and play much better. The rotatable sound-cancelling microphone filters background noise and keeps your voice clear, so your colleagues hear you, not your environment. Turn it up when not in usage, or silence it with a basic switch.

Trendy, Practical, and Game-Ready

More than simply efficiency, this headset looks the part. Including a unique werewolf-inspired style and LED lighting powered by USB (lights just), it brings a cool, climatic edge to your setup — ideal for banners and players alike. And with simple plug-and-play functionality through the 3.5mm jack, it works flawlessly across consoles and devices.
