

Wireless Bluetooth Over-Ear Headphones with Mic, HiFi Bass, Sound Decrease

Description

Immersive Noise. Overall Flexibility.

Enter a world of pure, cordless audio with these high-performance Bluetooth over-ear earphones. Created for music fans, players, and multitaskers alike, these collapsible earphones integrate deep, immersive HiFi bass with noise-reducing innovation to offer you crisp, effective noise any place you go. Whether you're travelling, video gaming, exercising, or unwinding in the house, take pleasure in the supreme audio experience without wires holding you back.

What Makes These Earphones Unique?

These earphones are developed with a 40mm titanium diaphragm and expert audio tuning, providing abundant bass and crystal-clear highs. The integrated LCD show keeps you notified on power and connection status. Thanks to Bluetooth 4.1 with EDR and CSR chipset, you get steady connection and low power intake throughout all your gadgets—mobile phones, tablets, laptop computers, and PCs. Plus, the collapsible, light-weight style and soft protein leather earmuffs make these earphones extremely comfy, even throughout long listening sessions.

All-in-One Performance

These aren't simply earphones—they're your on-the-go home entertainment center. With assistance for TF card playback and integrated FM radio, you can tune into your preferred music and stations without even requiring a phone. The high-definition mic permits hands-free calls, while CVC6.0 sound cancellation keeps discussions clear, no matter where you are.

Secret Advantages

- **Wireless or Wired** – Usage Bluetooth or the 3.5mm audio jack for constant listening
- **HiFi Stereo Noise** – Deep bass and well balanced treble for a premium audio experience
