

Wireless Door Stop Alarm System

Description

Protect Your Home with Confidence – Loud, Portable & Easy to Use

Looking for an easy and effective way to boost your home security? The Wireless Door Stop Alarm System is the perfect solution for you. This powerful yet portable device offers 125dB of ear-piercing sound, designed to deter intruders and give you peace of mind, whether you're at home, traveling, or working alone. With no complicated installation required, it's as simple as sliding it under your door and flipping the switch. Compact and durable, this doorstop alarm is a must-have for anyone serious about personal and home security.

What makes this product even better? It doesn't just stop at being an alarm. When not armed, it doubles as a reliable door stopper, ensuring your doors stay open or closed as you need. It's ideal for use at home, in hotels, offices, or even when you're out and about. The 125dB alarm is loud enough to startle anyone, giving you precious seconds to act if an attempted break-in occurs. Designed with adjustable sensitivity settings, you can customize how it reacts to pressure—offering a solution tailored to your specific needs.

Key Features

- Powerful 125dB alarm – loud enough to scare away potential intruders
- 3 adjustable sensitivity levels (Low, Medium, High) for customized protection
- Durable stainless steel cover for long-lasting use
- Acts as both a doorstop and an alarm
- Portable and lightweight – perfect for travel
- No installation required – just place it under the door and turn it on
- Powered by a single 9V battery (not included)

Benefits of the Wireless Door Stop Alarm System

- Instant protection with no tools or complicated setup – perfect for anyone
- Provides peace of mind when sleeping, traveling, or working alone
- Can be used in a variety of settings: home, office, hotel rooms, etc.
- Extremely loud alarm ensures you'll be alerted to any danger immediately
- Durable and built to last, offering great value for your investment

Why Choose This Alarm System?

The Wireless Door Stop Alarm System stands out because of its simple, no-fuss design and powerful 125dB alarm. Its ability to double as a door stopper, combined with its adjustable sensitivity settings, gives you an added layer of security wherever you are. The device is portable, lightweight, and requires no installation, making it ideal for both home use and travel. Whether you're staying in a hotel, protecting your office, or ensuring your home's security, this product offers a reliable and easy solution to keep intruders out.

Don't leave your safety to chance—grab your Wireless Door Stop Alarm System today and enjoy peace of mind wherever you go!
